The ADAM graphic mark

Use the supplied graphic mark exactly as it is. Keep its proportions, colours, crown, cross, golden thread and ministry ribbon intact.

CLEAR SPACE

Keep at least the height of the crown clear on every side.

One mark. No added wordmark.

Do not type "ADAM" or "ADAM Ministries" underneath it. The ministry ribbon already belongs to the graphic mark.

How to use the mark

The mark should always feel cheerful, clear and cared for. These simple rules protect it everywhere—from a book cover to a child's sticker.

PLEASE DO

- Keep the original proportions
- Leave clear space around it
- Use the supplied colours
- Place it on a calm background
- Print it large enough to read

PLEASE NEVER

- Stretch, squash or rotate it
- Recolour individual letters
- Add a shadow or glow
- Put another ADAM word beneath it
- Place it over a busy face or picture

Always use the official file—not a screenshot or traced copy.

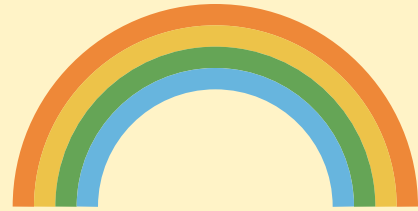

ADAM logo stickers

Print on full-sheet sticker paper at 100%. The soft grey line is your cutting guide; the official graphic mark inside it remains untouched.

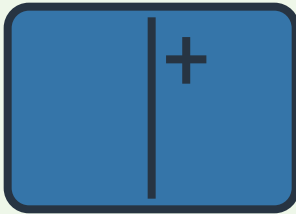

Bible story sticker sheet

Cut around the dotted outlines. These playful shapes sit beside the official ADAM graphic mark without changing it.
